Ministry Fair is a day of workshops providing new ideas, skills and knowledge for people of faith. Our day together will include 4 different time blocks of workshops where you might find yourself learning how to develop a website and use specialized church communications systems, or how to design bi-lingual worship, or find ideas for both local and global initiatives regarding the Millennium Development Goals, or how to increase giving to your church, or strengthen pastoral care, or strengthen your youth program, or the opportunities go on and on.

Choosing from thirty (30!) offerings will be a challenge, so plan to send a team in order to bring back as many ideas and as much information as possible.

By special arrangement **The Youth and Family Institute**, will present a one-day experience of their *Passing On Faith Conference*. This all-day track is designed to inspire and equip church leaders and educators with a vision for passing faith among the generations, empowering and supporting families as they become primary faith instructors for their children. Participants will go home with a wide variety of ideas and resources, all ready to adopt, adapt and apply in their home and congregation. **Registration \$25 (includes lunch).**
