List Price: \$49.00

Intergenerational or with specific age levels  
Teacher support: offers ideas, a multitude of links and helps for leaders with specific lesson plans

Faith and Nature is an eight-session, downloadable, intergenerational, faith-formation resource focused on appreciating and living in harmony with God's creation.

The study includes 15 photos and 10 illustrations to use in activities and discussions. This intergenerational spiritual-formation program explores and embraces how God is at work in nature, using the Anglican approach of scripture, tradition, reason, experience -- and fun!

Learners will build awareness and appreciation of our spiritual connection to Creation/nature in a traditional way that prepares participants to bring hope and faithful action to today's ecological concerns. The electronic documents includes dozens of live links to additional online resources and activities.
